Forecast for Wednesday 30 Nov 2022

Weather: Mist and fog may be quite dense at times overnight in the east with some drizzle in thicker fog or freezing fog patches, and this may be slow to clear during the morning especially lingering around eastern mountains towards Betws-Y-Coed. Otherwise a dry and bright day with plenty of winter sunshine. Clear spells during the evening and feeling quite cold.

Chance of cloud-free hill tops above 800m: 40% rising to 90%, early low cloud and fog will shroud the eastern mountains bur further west clear tops are expected, low cloud may be persistent in the east.

Low Cloud and visibility: Broken layers of cloud above 400m are likely in the morning in the east, in the west patches of cloud around 600m are likely but mainly clear tops. Cloud layers will be slow to lift and clear in the east but most places having clear tops in the afternoon. Visibility will be poor or very poor in fog and mist patches but will be good beneath cloud layers and generally very good visibility with great views around Snowdonia during the afternoon.
